EXAMINER'S AMENDMENT

1. An Examiner's Amendment to the record appears below.

Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

2. The Amendment filed on March 27, 2006 has been amended as follows:

(a) claim 9 has been cancelled because it is the same as the cancelled claim 2 and the amended claim 1 includes the limitations of claims 2 and 9.

Allowable Subject Matter

3. Claims 1, 3-6, 8 and 10-15 are allowable over prior art.

4. The following is an Examiner's Statement of Reasons for Allowance based on the Amendment filed on March 27, 2006.

As in claim 1, the prior art of record fails to teach or fairly suggest a header identification unit, which comprises a high-frequency path, low-frequency path and a signal detector, and has a track error signal applied to it.

As in claim 15, the prior art of record fails to teach or fairly suggest a method for generating an intermediate track signal having a step of detecting the track crossing frequency, and, if a limit value is undershot, generating an invalidity signal, which is cancelled only when signal components which are typical of header areas are present once again.

The features indicated above, in combination with the other elements of the claims, are not anticipated by, nor made obvious over, the prior art of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any response to this action should be mailed to:
